

ASUN Concurrent Enrollment Program Courses

A Note on Available Courses

This list shows common courses offered as concurrent courses. **NOTE** that available concurrent courses depend on the agreement between each individual high school and ASUN. Students receive a list of concurrent courses offered at the high school they attend.

A Note on Course Prerequisites

Prerequisites are standards that students must meet in order to enroll in certain courses. Most prerequisites either consist of a test score, cumulative high school GPA, or successful course completion. All high school students need to have an ACT Reading score of 19 or equivalent test scores **and/or** a non-weighted cumulative high school GPA of 3.0 to enroll in the below listed courses. IF no additional prerequisites other than ACT Reading score of 19 or cumulative high school GPA of 3.0 are needed, "none" is listed in the prerequisite column.
